Sage 100 Contractor Liberty Reports

"Liberty Reports is our go-to tool for writing reports. It quickly pulls data from Sage 100 Contractor and places it into Excel. This is convenient because Excel is easy to learn, especially when compared to Crystal Reports and other software. Liberty Reports also enables us to analyze data painlessly by joining tables."

— Alina Stavros Accounting Manager, C.J. Erickson Plumbing Co.

Sage is the market leader in job cost accounting for construction and real estate companies with over 40 years of experience in the industry. Superior financial management is at the core of Sage 100 Contractor and the ability to report on this data is critical to business success. Liberty Reports for Sage 100 Contractor offers powerful reporting and analysis tools all accessible from the familiar Microsoft Excel® environment.

Superior reporting with Excel

Liberty Reports is a reporting add-on for Microsoft Excel® that transforms business reporting as you know it. With it, Excel becomes an interactive reporting tool that connects directly to your company databases. Leveraging what you already know about Excel, you can use your company data in combination with Excel's robust features and be liberated to do more with business reporting than ever before.

Sage

Transform Microsoft Excel® into a powerful and intuitive reporting solution populated with your Sage 100 Contractor data using Liberty Reports. Use it for all your business reporting needs such as management reports, exception reports, and auditing.

**Why choose Liberty Reports for Sage 100 Contractor**

Work within the familiar Excel environment as you design and leverage its powerful reporting tools. There's nothing new to learn. Regardless of your level of Excel expertise, Liberty Reports for Sage 100 Contractor allows you to quickly and easily start producing meaningful reports. This results in minimal implementation time and a rapid return on investment. Technical talent isn't necessary to utilize Liberty Reports for Sage 100 Contractor. The tool will walk you through report design to help you place the right information into the right places. Plus, the Excel environment allows you to present information professionally with colors, fonts, and impactful visuals. After a spreadsheet is set up, it can be reused as necessary to transform an Excel workbook into a meaningful report that pulls live data with real-time accuracy.

Other methods of entering data into Excel have potential for data inaccuracy due to human error. Making business decisions based on inaccurate data can be costly and result in a lot of wasted time. With Liberty Reports, data is delivered directly from your Sage 100 Contractor accounting database, eliminating any chance of human error that may create data discrepancies.

Sage 100 Contractor customers choose Liberty Reports for:

- Ease of use.

- Time savings.

- Presentation quality.

- Data accuracy.

Drive better decision making with accurate data from Liberty Reports for Sage 100 Contractor.
